

300 Cable Tray Supports

Overview

These tray systems allow excellent ventilation and prevent sagging while routing. This pre-galvanized trapeze bracket is designed for quick installation and comes fully pre-assembled, helping to reduce both on-site time and installation. Cable trays are components used in the wiring of buildings to support insulated cables and organise them to be hidden from view. They offer an alternative to open wiring or electrical conduit systems and are necessary for cable management in commercial and industrial construction, as well as. This is a next working day service which is free of charge on order values above £100 Exc VAT to the UK mainland. For orders under this value a charge of £10 Exc VAT will be applied. Made from durable pre-galvanized steel, it's ideal for supporting cable. OBO BETTERMANN has offered products and solutions for electrical installation for over 100 years. Establishing partnerships. CM013300 EAN.
