

411 Distribution Box

Overview

Item Type: Terminal Distribution Box Model: 4 Tier Junction Box 411 Rated current: 125 A Rated voltage: 500 V Type: Terminal block/wiring block (strip). Product output: 4 inputs 40 outputs Number of holes: 4x11 Brass rod: 6. The pressure washer style clamp picks up a bare wire and the bridges allow for a clean distribution of signals or electricity. The box adopt brass conductive and flame retardant housing, the maximum withstand current is 100A. It serves as a single phase junction box, featuring a.
