

Core-mounted distribution box

Overview

Serving as a termination point for feeder cables to connect with drop cables, this box integrates fiber splicing, splitting, distribution, storage, and cable management into a single unit. Designed with a total enclosed structure to provide comprehensive protection for fiber. Fiber distribution box is suitable for the wiring connection of optical cable and optical communication equipment, through the adapter in the wiring box, the optical jumper leads the optical signal, and realizes the optical wiring function. This sturdy construction ensures that it is both waterproof and dustproof, making it suitable for a wide range of. Premium-Line FTTH distribution box is aimed designed for multi-purpose applications in FTTH projects, the dual layer design supports direct termination, and also FTTH distributions via mini splitter built in, available for from 1:2 to 2:32 distributions with Premium-Line FTTH distribution cable. The Fiber Optic Distribution Box is a premium solution designed to efficiently manage, protect, and distribute fiber optic cables in both indoor and outdoor environments.
