

East Africa Fireproof Cable Trays Full Range of Specifications Available

Overview

Available in different finishes EZ, EZ+, GC, 316 L and 304 L stainless steel, they are certified E30/E90 and conform to standards IEC 61 537, ABS (American Bureau of Shipping) and DNV (Det Norske Veritas, approved for offshore platforms and ships). Sartra provide a wide range of cable trays and conduits sourced from leading manufacturers for domestic, commercial, industrial and power distribution applications. These include galvanised steel conduits in a variety of lengths and diameter and cable tray systems manufactured to the highest. Cable trays are available in three types, from light duty through to heavy duty; each system is supported by a fully integrated range of time saving fixings and fittings Suitable for installations in retail, industrial and offshore environments. Available in Galvanized, Powder coated, or both. They are used as an alternative to open wiring or electrical. Seamless Process Automation Limited offers some of the strongest cable trays in Kenya and produces them to a very high structural and visual standard. Cable trays offer continuous support of cables, are lightweight, quick and straight forward to install just about anywhere, and generally mean that.
