FW108GPS-2F is an industrial full gigabit management POE switch, which provides 8 gigabit POE ports, 2 gigabit optical ports, and EMC industrial grade 4 protection performance; Corrugated high-strength aluminum shell, IP40 grade, low power consumption design, anti-seismic guide. This managed switch comes with Ethernet TCP/IP protocol. It comes with 8 copper cable transmission ports and 2 ports for single-mode fiber optic. It provides simple and complex connectivity for multiple Ethernet device, network management, enhanced cyber security and more advanced switching. Developed for long distance fiber installations. Something wrong?

Both the 8-Port Industrial Switch (852-1102) and the 8-Port Industrial ECO Switch (852-1112) meet these requirements. The features provided by the 852-1102 Switch speak for themselves: a high data throughput of 1 Gbit as well as suitability for use in extreme ambient conditions ensure a large. The SDI-862 is a simple and cost effective unmanaged fibre switch suitable for use in a wide range of factory and building automation applications.
