

# Fiber Optic Cable Composite Trench Cover Plate

## Overview

This lightweight (42 kg) trench cover plate is manufactured from Composite Fibreglass material to be durable and long-lasting. It's an interconnectable system with heavy-duty locking connectors to enable coverage over large trench zones. FTTP fibre optic trench cover suitable pedestrians and vehicles over a 75-100mm excavation LowPro 100 fibre optic cable trench cover is available with a 20mm depth. Quick to install, made of recycled materials. Dispenser Sumps Remote & Direct Fill Sumps Tank Sumps Accessories Don't break concrete fit a Fibrelite find out more. KPS Piping: The Simple Solution [CLICK HERE](#) Select a category: Trench Covers Lightweight Trench & Cover Systems Retail Fueling Fuelling Manhole Covers Underground Enclosures Steam. Fibex GRP Trenchlite® Cable Trough Covers provide a versatile and lightweight alternative to Pre-Cast Concrete Trough Lid. GRP Trench Covers, used alongside our award-winning GRP Cable Troughs, offer Trough Lids suitable for both vehicular and pedestrian traffic. Manufactured through a one-step high-temperature, high-pressure molding process using composite resin, glass fiber, and steel reinforcement, it combines high strength with lightweight design, meeting. Let us help you Unlock the Power of Composites with a low maintenance, durable and simple to install composite Glass Reinforced Polymer (GRP) alternative to heavy & cumbersome steel or concrete covers. Easy manual handling and simple installation on site. Our trench and trough covers are designed. The Plastibeton® cable trench is a trusted system by power, utility, railroad and transit companies throughout North America to contain, protect and allow easy access to power, control, signal, communication, and fiber optic cables. Made of a unique, patented high-density polymer concrete, the.
