

Fiber Optic Cable Header 90

Overview

Molex Patented 90° fiber optic patch cords are designed to reduce stress on fiber, while maintaining proper bend radii – critical in maximizing efficient cable management practices. View inventory, pricing and order now for same day shipping! Corning offers the most complete line of connectors and factory-terminated cables, from single-fiber cords to high-fiber-count cable assemblies. The Corning Quick Connect program offers a 2-day lead time for our EDGE Uniboot Jumpers, with a 90% delivery guarantee. This cable series include single mode and multimode type, and it could be with various fiber optic terminations like SC, FC, ST, LC, E2000, etc. Smart Filtering As you select one or more parametric filters below, Smart Filtering will instantly disable any unselected values that would cause no results to be found. Please modify your search so that it will return results. To use the less than or greater than function, please select a value. The robust and compact design delivers consistent and repeatable intensity and colour readings, + 1mm with less than 10% Intensity change Feasa Optical Heads are special receptacles that improve the stability of intensity measurements.

Article Content

Optical Fiber Types

ITU G.653 Covers single-mode dispersion-shifted optical fiber. Dispersion is minimized in the 1,550-nm wavelength range. At this range attenuation is also minimized, so longer distance cables are possible.

90 Degree Fiber Cable, 90 Degree Fiber Patch

90 Degree Boot Fiber Optic Patch Cable Made with the special 90 degree fiber cable connector boots, these 90-degree fiber cables are used in special

Ultra-High-Vacuum Fiber Feedthrough CF Flanges

Each feedthrough incorporates a hermetically sealed step-index multimode optical fiber in a stainless steel shell, provides a low insertion loss of ≤ 2.3 dB, and can handle optical powers up to 1 W.
