

Fiber Optic Field Quick Connector

Overview

FC Fast Connectors (FC Field-Installable Connector) are pre-assembled, quick-termination connectors used in fiber optic networks to enable fast and efficient field installations without the need for specialized tools or equipment. Proven mechanical splice technology ensuring precision fiber alignment, a factory pre-cleaved fiber stub and a proprietary index-matching gel combine to. The SC/UPC fast connector are factory pre-polished, field-installable connectors that completely eliminate the need for hand polishing in the field. Corning UniCam® high-performance fiber optic connectors offer. Fiber optic quick connectors are core devices enabling efficient fiber optic coupling. Their primary function is to precisely align the end faces of two optical fibers via an intricate mechanical structure to minimize optical signal transmission loss.
