

Fiber optic quick connector jack location

Overview

Placement for the fiber wall jack is determined by the Internet Service Provider (ISP), who runs the external fiber to that point. Technicians seek a location that is centrally located, near an existing power outlet, and away from high-traffic areas where the jack could be disturbed. Assembly instructions on how to mount a quick connector on a fiber optic cable. For any question or suggestion leave a comment. Learn more Assembly. Finish making your selections or clear them to view relevant specifications. Your web browser (Internet Explorer 11 or lower) is out of date and the functions below will not work with Internet Explorer. You. Fiber optic cables carry data as pulses of light through thin strands of glass, requiring a precise, undisturbed connection. The jack acts as a transition. FASTCAM and FAST-CURE connectors are available in LC, SC, and ST styles. ARIA Technologies is an industry leading designer, manufacturer, and provider of fiber optic connectivity products located in the San Francisco Bay Area. Our commitment to responsive, informative, timely, and knowledgeable customer service and support makes ARIA stand out among suppliers.
