

Georgia fiber optic cable connection

Overview

Georgia Fiber Map helps you find and price fiber lines anywhere in GA. Number of fiber providers depend on your specific area. Prices in our database are updated automatically and accurately when the carrier updates pricing. Kemp announced the publication of Georgia's Broadband Availability Map, a new tool that will bring more transparency about the internet marketplace and clarify which Georgia households do not have access to high-speed internet. The map will be updated continuously to improve its accuracy through a combination of FCC verification efforts, new data from Internet. By bulking with Hotwire Communications, residents will receive fiber-optic internet that is lightning-fast, innovative, and scalable. Sign up now! This work includes the installation of fiber optic cable and equipment including but not limited to cable, interconnect, patch cords, FDC interconnect cables/pig tails, any cable related hardware, connectors, splices, closures, temporary systems, testing, training, or any other fiber optic product.
