

German Intelligent Micro-Module Company

Overview

Microdul manufactures the world's smallest electronic modules. The PCBAs (Printed Circuit Board Assemblies) are developed in close collaboration with clients and custom-designed for implants, medical devices, and high-end industrial products. As "Research Fab Microelectronics Germany" we offer you a wide range of micro- and nanoelectronic technologies, applications and systems. We conduct cutting-edge research and development into silicon-based systems, high-frequency circuits and technologies for wireless and broadband. Back in November 2024, the German government announced its plans to invest EUR 2 billion in the country's semiconductor industry. IMST develops safe and precise VTOL landings using radar, radio communication, and ground systems IMST presents innovative solutions for embedded systems, IoT, smart metering, radar, chip design. First application-ready MicroSys starter kit for artificial intelligence available now Vehicle gateway processor on an application ready SoM by MicroSys Your solution partner for dedicated embedded systems – application ready, and based on miriac® SoMs NXP® integrated our SoM into its scalable.

Intelligent Memory

Hier sollte eine Beschreibung angezeigt werden, diese Seite lässt dies jedoch nicht zu.

Electronic modules & solutions,

Industry Medical technology About Micro-Hybrid Electronic GmbH Find out more about the team and the most important background information

Intelligent Power Module (IPM) Companies

This report lists the top Intelligent Power Module (IPM) companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors

Microdul AG

Microdul is specialized in manufacturing high-quality, miniature electronic modules and in the processing of uncased integrated circuits.

Top 21 Semiconductor Companies in Germany

Explore the semiconductor companies in Germany, including ASML Berlin and Freiberger, driving innovation and quality in microelectronics.

Inspiring Mobile and Satellite Comm. Technology

We are a full-service engineering company and system house for radio systems, chip design, antennas and EDA software. As experts in

Microelectronics. Trustworthy and sustainable. For Germany und

This makes (micro)electronics an important basis for prosperity in the age of digitalisation: by providing services that improve the quality of life and ensure sustainable value creation and jobs in Germany.

Top 21 Semiconductor Companies in Germany

The list features 21 semiconductor companies across Germany, ranging in size from small firms to large enterprises. These companies, founded between 1973

Micro-Hybrid

Customised electronics and sensor solutions made in Germany for 30 years. We advise you. Online Shop IR emitters and sensors.

59 Top Semiconductor Startups and Companies in

This article showcases our top picks for the best German-based semiconductor companies. These startups and companies are taking a variety

Germany Intelligent Modular Microgrids Market Influences ...

The Germany Intelligent Modular Microgrids market is shaped by several leading players who drive innovation, set industry standards, and hold significant market shares.

Mikroelektronik. Vertrauenswürdig und nachhaltig. Für Deutschland

Oder durch Elektronik, die andere Geräte intelligent steuert und so deren Strom Appetit zügelt – wie es Bewegungssensoren anstelle von Lichtschaltern tun. Damit ist sie ein wichtiger Baustein für das

smartmicro | Advanced Radar Sensor Technology

Manufactured in Germany and deployed worldwide, smartmicro sensors are engineered for durability, accuracy, and long-term performance—even in the

Modular Embedded Platforms for NXP Processors –

MicroSys quickly develops custom control and HMI devices for harsh environments, leveraging miriac® modules and SBCs with NXP processors, plus certification

micromod Partikeltechnologie GmbH – Modular designed particles

More than 30 years of experience in the production of chemically surface-functionalized and magnetic micro- and nanoparticles as well as continuous quality management are the basis for our extensive

Intelligent clean-room as well as modular, small-scale clean space ...

General information Short Summary A German company offers clean-room as well as intelligent, modular small-scale clean environment solutions for precision, sensitive and high-tech

IHP : Leibniz Institute for High Performance

We conduct cutting-edge research and development into silicon-based systems, high-frequency circuits and technologies for wireless and

Intelligent Power Module Market Companies

Intelligent power modules offer advantages such as improved power density, enhanced thermal management, and higher reliability, driving their adoption across various industries. The market is

Zuliefererverzeichnis

Micro Systems Technologies Group - Advanced microelectronics for high-reliability markets Active around the globe, the MST Group consists of four technology companies with more than 1100

ITPro Today, Network Computing, IoT World Today combine

For more details about the Informa TechTarget combination, we invite you to read the company's press release and explore our combined portfolio of publications. Together, we are

MTC Micro Tech Components GmbH | EMC shielding materials

MTC Micro Tech Components GmbH is a leading manufacturer of standard and customized solutions for EMC and thermal management (TCP) in a variety of industries. More than 25 years of business

Top 10 Semiconductor Companies in Germany (2026)

In this blog, we will cover the top semiconductor companies in Germany, including IDMs, foundries, fabless companies, suppliers, and manufacturers, ranked

IHP : Leibniz Institute for High Performance Microelectronics

We conduct cutting-edge research and development into silicon-based systems, high-frequency circuits and technologies for wireless and broadband communication.

Coherent Market Insights: Market Research and B2B

Coherent Market Insights provides Market Research, Customized Research, Business Intelligence, B2B Consulting, and Advisory Services to

Über die FMD

Die FMD bringt sich als strategischer Dialogpartner aktiv in die deutsche und europäische Forschungsagenda ein und gibt dabei wichtige Impulse zur
