

Grenada 576-core optical fiber junction box

Overview

The Model GD-J116R Fiber Optic Splice Closure (FOSC) is designed for optical fiber connection and protection. It is suitable for overhead, pipe, and buried straight and branch connections. 576 core outdoor waterproof dome optical fiber junction box wall/pole mounting has 16 circular cable entry hole and one oval hole, adopt the heat shrinkable seal, Can be used for aerial, pole and wall mounting; Good sealing performance, simple installation, it is the best option for the optical. FOSC-GJS-D319 Heat-shrinkable Dome Optical Fiber Splice Enclosure can be used as joint box to protect fiber splice connection of fiber cables, and as branch application for cables of bunchy fiber and ribbon fiber. *The box body and base are sealed with hoops and rubber. *The closure casing is made of quality engineering. 576 core dome splice joint closure is 1 in 8 out design applied in FTTH (fiber to the home) environments The 576 core dome joint closure is a mechanical sealing design with one oval port cable entry and eight round port outlets. It is a great solution for distributing, splicing and storing outdoor. This fiber splicing dome enclosure comes with six splice trays that accommodate up to 96 unterminated cables to give you more flexibility in adjusting cable lengths and connection types directly on-site. Fully kitted with all parts for convenient operation. Overlap structure in splicing tray for easy installation.
