

High-density AC-DC power supply 1U in stock

Overview

The 1U family of programmable AC-DC power supplies sets a new standard for flexible and reliable power for your application. Available in a Rack Mounting or Benchtop at 720W power levels with wide adjust output voltages ranging from 0-5V to 0-135V and current capabilities up to 70A. Find options from 300W to 600W with various efficiency ratings. Get fast shipping and top-rated customer service. 1U high, 100mm wide 24V DC Input PC550 Watt and 700W ATX Power Supplies, 24 volt Input, ATX DC-DC 24 Volt Autonomous vehicle computer power supply. They are useful for applications where battery or solar power is available. These. The HPR-series of front-end rectifiers provide highly efficient and reliable isolated power in a compact, 1U industry-common form factor, providing a high-power density of up to 68. The series is suitable for test system installation or system integration by flexibly selecting models for the integration into the existing test system.
