

Huawei Network Switch with Rack Access 60 Ports

Overview

Huawei S5720-HI series are advanced Gigabit Ethernet switches that provide rich agile features. The switches are developed based on Huawei Versatile Routing Platform (VRP), and use the fully programmable structure to implement software definition and service change on. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education. Get the best deals on Huawei Rack Mountable Ethernet Switch Enterprise Network Switches and find everything you'll need to improve your home office setup at eBay. Built on next-generation high-performance processors and. two slots for uplink interface extension. Huawei's CloudEngine campus family pushes Power over Ethernet to the limit: from 15 W PoE and 30 W PoE+ all the way to 60 W PoE++ (IEEE 802.
