

Integrated Cabling Tray

Overview

Cable trays are an integrated, highly flexible cable support system when used in combination with the matching support structures, covers and system-specific accessories. The unique shape of our cable trays results in up to 50% extra capacity in specific applications compared. Whether in workshops, shopping malls, offices or restaurants, cable trays can conduct a wide variety of cable types safely along ceilings and walls. Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project type both offshore and onshore. We also. OBO BETTERMANN has offered prod-ucts and solutions for electrical instal-lation for over 100 years. With our many years of experience, we are one of the leading manufacturers in this field.
