

Latest News on Lebanon's Fiber Optic Cable Expansion

Overview

BEIRUT: Prime Minister Saad Hariri announced Tuesday the initiation of a wide scale fiber optic project across all Lebanese territories, after state-owned telecom company Ogero awarded tenders to three international companies tasked with linking end users to their central offices. The project, launched in 2018, was. With the Ministry of Telecommunications - Lebanon & OGERO launching tenders to connect 325,000+ homes across 25 COs, we're finally turning plans into progress, backed by the 2024-2025 budgets. This milestone will grant FTTH access to major cities, a real leap toward Lebanon's digital future. Globalcom and GDS are thrilled to announce the expansion of their fiber optic networks to the Metn Central area, specifically in the towns of Elissar, Mazraat Yachoua, Cornet Chahwan, Ain Aar, Beit Al Kiko, Hbous, Mtaileb, and Dik El Mehdi. This expansion marks a significant milestone in our. Fiber to the x (FTTX) is a generic term for any broadband network architecture using optical fiber to provide all or part of the local loop used for last mile telecommunications. The company's Chairman, Imad Kreidieh, confirmed that expansion plans will resume, backed by funding from multiple donors.
