Today, with production plants in Norway, Finland and Sweden more than 100 employees are active in the fields of production, reconditioning and sales of SCHÜTZ containers, plastic drums and steel drums - offering high-quality products and services to customers in Norway, Sweden. Today, with production plants in Norway, Finland and Sweden more than 100 employees are active in the fields of production, reconditioning and sales of SCHÜTZ containers, plastic drums and steel drums - offering high-quality products and services to customers in Norway, Sweden. Nordic Anti-Corrosion Supplies is a newly established company based in Sønderborg, Denmark, dedicated to providing high-quality equipment to the surface treatment industry. Our foundation is built on over 40 years of hands-on experience in the supply of abrasive blasting and airless paint spraying. Having started as a Dynoplast licensee in 1997, SCHÜTZ Nordic AS was founded in April 1999 with the ambition to corroborate the position as leading supplier of packaging systems also in the North-European markets. The production of SCHÜTZ IBC commenced in the same year. We are very proud to announce that Boxon Oy has won a ScanStar 2022 for the innovative BoxCor® box (Corrosion prevention box).
