

OPGW24B1-58 optical cable price

Overview

A 24-core OPGW cable is estimated to cost around RMB 15,000 per kilometer. A 72-core OPGW cable might reach up to RMB 30,000 per kilometer or more, depending on. OPGW is mainly applied in communication line of newly constructed high voltage transmit electricity system with 35 KV or above, or replacement of existing ground wire of previous overhead high voltage transmit electricity system, adding of communication lines and conduction of short-circuit current. It has the dual functions of ground wire and communication optical cable, eliminating the huge cost of repeated installation and maintenance. It is installed on the top of the power overhead line tower, without considering the best hanging point and electrical corrosion. Focus on optical fiber performance metrics, guaranteed by factory wholesale suppliers and famous brand OEM partnerships. there are three main categories: aluminum tube type, aluminum skeleton type and (stainless) steel pipe type. It has the. OPGWatch® monitoring system detects events in real time across the overhead lines using only one fibre from installed OPGW cable.
