

Outdoor Intelligent Switch Distribution Box

Overview

The XGW-12 Outdoor Intelligent Switchgear is a compact and modular high-voltage power distribution device designed for outdoor applications. Operating at a rated voltage of 12kV, it integrates functions such as switching, protection, monitoring, and control. USER FRIENDLY DESIGN - Convenient locking system and thoughtful construction for. Limitations of “Dumb” Waterproof Boxes + “Smart” Indoor Switches: Many attempt to achieve outdoor automation by placing an indoor smart switch inside a generic waterproof outdoor electrical box. It is widely utilized in urban and rural power grids, substations, industrial facilities, and renewable energy systems to ensure efficient, safe, and reliable. These Distribution Boxes enable decentralized installation of the electronics close to the load. The range of applications extends from pure energy distribution in buildings to building automation and through to industrial plants. SMART DISTRIBUTION BOXES FOR FLEXIBLE BUILDINGS.
