

Quantity of distribution boxes delivered

Overview

Based on the latest available data from Amazon's 2025 quarterly reports and third-party logistics trackers, Amazon ships approximately 20-25 million packages daily worldwide as of 2025. 2 million orders per day in 2024. The Amazon logistics pipeline employs over. The global distribution boxes market is valued at \$11. 31 billion by 2034, expanding at a compound annual growth rate of 6. Since a large retailer might sell tens of thousands of products from thousands of vendors, it would be impossibly inefficient to ship each. The global market for Distribution Boxes was estimated to be worth US\$ million in 2023 and is forecast to a readjusted size of US\$ million by 2030 with a CAGR of % during the forecast period 2024-2030. The exact count fluctuates with seasonality, special sales events, and geography. Analysts derive the daily figure by back-calculating orders and items from Amazon's reported revenue and independent.
