

ST Fiber Optic Splitter

Overview

Discover ST optical splitters for FTTH/PON networks with low insertion loss and CE certification. Ideal for reliable optical communication. To resolve this problem, the UCL Swift fiber optic splice-on connectors, such as the ST Splice-On Connector, uses the ferrule to disperse this transformation and prevent fiber optic disconnect. For a duplex connector, substitute the first “S” with “D”. Optical splitters and couplers split or combine light—distributing signals injected into a single fiber strand to multiple fibers, enabling point to multi-point communication in Fiber To The Home (FTTH) networks based on ITU. T PON standards such as GPON, XGS-PON and new 25 and 50G standards. Low Insertion Loss, High stability. □Dust cap□All SC couplers are polished clean and covered with dust caps to keep. ST Connectors Fiber Optic Connectors are available at Mouser Electronics.
