

Screwdriver for distribution boxes

Overview

Screwdrivers: Use flathead and Phillips screwdrivers to put in or take out screws from the box and cover. Pliers: Lineman's pliers hold and twist wires. A measuring tape and utility knife are also necessary, and a level ensures that you install distribution box components straight. Modular &. Screw presenters are well-suited for the automatic presentation of screws to allow pickup with handheld or stationary screwdriver. Our engineers will be happy to help you select the right screw presenter or screw dispenser for your individual. The ITL Insulated Slotted/Phillips Screwdrivers made with an injection moulded nylon 11 handle, which exceeds the requirements of IEC 60900, the industry standard for live line working. In addition, this tool meets the requirements of Category 'C', which requires it to perform at extreme. Design Tool Inc. Part of our range of Haupa tools for electricians & electrical use.
