

Singapore fiber optic cable fault

Overview

Asia Piling Co has been identified as the subcontractor responsible for striking critical underground fibre optic cables, triggering a 20-hour broadband outage on 18 April 2026 that affected more than 5,000 households across Singapore. In naming the subcontractor, the Land Transport Authority. What this means for outages: a cut or fault in NetLink's passive layer can impact multiple RSPs in the same building or street; a retail core-network fault usually affects only that RSP's users. The Next-Gen NBN was engineered as an open-access platform separating passive. Downtetector Explorer helps companies rapidly resolve issues, reduce service downtime, and improve mean time to resolution. Download to check service status and run speed tests User reports indicate problems with Spotify since 11:50 PM EDT.
