

Swiss Edge Data Center Explosion-proof

Overview

Embedded inside the Swiss Alps and hermetically sealed, the data centers also offers protection against environmental disasters such as earth quakes, floods, landslides and large-scale fires. The redundant telecommunication and infrastructure represents a state of the art. Switzerland is known for its stability, precision, and innovation. Located in the heart of Europe, it provides ideal access to the continent's major markets. With their high-value equipment, dense cabling, and reliance on uninterrupted power, they present a unique risk profile that demands robust fire prevention and loss control strategies. At ABB's Smart Buildings factory in Schaffhausen, Switzerland, cutting-edge technology met operational efficiency through the Secure Edge Data Center (SEDC), an all-in-one solution designed to optimize performance while reducing costs and environmental impact. Among several million miniature circuit breakers per year, the factory also manufactures the SMISLINE touchproof power distribution system for low voltage sub-distribution cabinets, a circuit monitoring system and. Several tower companies are launching telco Edge facilities, and as 5G and Internet of Things (IoT) & smart city deployments ramp up, the need for more telco/far Edge sites will increase. American Tower currently operates a number of small Edge colocation sites at tower locations in Pittsburgh. Store your business data in the safest data center of Europe, in the middle of the mountain massive of Switzerland.

Edge Data Centers & Colocation Switzerland | nLighten

With data centers in both Zurich and Geneva, nLighten brings true edge capability to Switzerland — putting critical infrastructure right where our customers need it.

Edge data center security: The challenge of unmanned

Edge security: not a today problem? The "lights-out" unmanned data center has long been discussed, but there have been few real-world

Data Center | Swiss Data Safe AG

Data Center secure system and data management unlimited Housing and hosting, online data storage, on- and offline backup, digital long-term archive. Swiss Data Safe's high-security data center

ABB Optimizes IT Infrastructure with Secure Edge Data

ABB, HPE, and Rittal created the Secure Edge Data Center, enabling an ABB Smart Buildings factory to safeguard data while saving on operating and energy costs.

Data Centres: Reducing Fire and Operational Risks

Safeguard data centres with Swiss Re's best practices on fire prevention, risk mitigation, and business continuity for critical infrastructure.

Swiss data center efficiency label launched at WEF

A group backed by HPE and the Swiss Federal Office of Energy has launched a new label designed to shift data centers in Switzerland onto

Strategically Located Edge Data Center in Zurich,

Explore the nLighten Edge Data Center in Zurich, Switzerland, offering high-density power, advanced sustainability, and superior security. With state-of-the-art

Data Centres: Reducing Fire and Operational Risks

Data centres form the backbone of modern business continuity, digital services, and global communications. With their high-value equipment, dense

Home | Swiss Data Safe AG

Solutions Your most sensitive and critical information and data, safely communicated via highly encrypted channels, always available, stored and operated in high-security data centers, and your

Building Sustainable Edge Data Centers

Emerging capabilities like data insights, benchmarking, and predictive analytics, are key differentiators which if leveraged, can contribute to

snowberg solutions AG – Swiss Private Cloud

The data centers are resistant against any known civil, terroristic and military threat, incl. ABC and EMP. Embedded inside the Swiss Alps and hermetically sealed, the data centers also offers protection

Swisscows AG |Unser Datacenter

Das SWISS FORT KNOX wird durch die Firma SIAG Secure Infostore AG betrieben welche nach ISO27001 zertifiziert ist. Das Konzept entspricht einem enormen

ABB, HPE and Rittal unveil Secure Edge Data Center to

Our Secure Edge Data Center is providing them with those capabilities with an off the shelf proven data center solution,” says Ciarán

EMP protection for a data center: Choose a bunker in

Whether in the event of war, cyberattack, or natural disaster, a Swiss bunker ensures the continuity of data center operations. These infrastructures are
