

What companies need AI servers

Overview

Dell, HPE, Lenovo, and Supermicro are riding record AI server demand, but winning enterprise customers requires more than just Nvidia chips. With GPUs standardized around Nvidia, vendors compete on AI Ops, liquid cooling, and deployment services as enterprises ramp up inference. Artificial Intelligence (AI) server manufacturers have experienced surging demand as data center operators require significantly more computing power than before the advent of ChatGPT and other Generative Artificial Intelligence (Gen AI) tools. Enterprises are seeking solutions that can handle complex workloads, from machine learning training to real-time inference. These massive computing needs have given rise to a. The global AI server market is expected to be valued at USD 142.83 billion by 2030 and grow at a CAGR of 34. (US), Hewlett Packard Enterprise Development LP (US), Lenovo (Hong Kong), Huawei Technologies Co. From GPUs that can crunch insane amounts of data to infrastructure that can stretch and grow as needs change, these companies are building the backbone that keeps AI ticking.
