

With 24 access switches

Overview

If you're looking for the best 24-port managed switches for 2026, I recommend considering options like the TP-Link TL-SG3428, NETGEAR, UniFi, and Omada models, which offer high speeds, PoE capabilities, and strong security features. The LANCOM GS-2426 is designed for medium-sized network infrastructures that require a silent connection for up to 26 end devices and Layer 2 switching. With 24 Gigabit Ethernet ports and two additional combo ports (TP/SFP), this access switch enables flexible, future-proof network expansion –.

- Connects up to 24 network devices - PCs, printers, and servers - to share and transfer files and videos across your network
- Power over Ethernet easily and cost-effectively powers wireless access points, video cameras, and other network-connected endpoints
- Simplified, web-based management for.

Stay ahead with the top 24-port managed switches for 2026, offering unmatched features and performance that can transform your network—discover more now. The switch provides high performance, enterprise-level QoS, useful security strategies and rich layer 2 management features. TP-LINK Gigabit Smart Switch TL-SG2424 is a cost-effective product. Remotely manage your access points, switches, and gateways across multiple sites all from a single interface. Requiring the use of Omada Hardware Controller, Omada Cloud-Based Controller, or Omada Software Controller. Microsoft® Windows®. The XMG2230-28HP offers PoE-capable 2. Both models include four 10G SFP+ fiber uplinks for high-speed connectivity.
